Program—Interact Students discuss Camp Royal

- Brooke, Gabe, Jesus, Montana, Destiny, & Megan tell us that Camp Royal was founded by Dick Hyland in 1979. These six students attended the week-long leadership program located in the Trinity Alps near Weaverville. These six kids were the largest group there.
- During their stay they weren't allowed to use computers or cell phones, except to take photos.
- All agreed that it was one of the best experiences of their lives, immediately bonding with other students.
- All of the students were required to all dress alike so that they felt that they were on the same page.
